NITRO-BUSTER NITRIFYING BACTERIA

- Size: 1 gal
- Mixture of bacteria to perform nitrification of ammonia nitrogen
- Oxidizes ammonia at a high rate, allowing nitrification to take place
- Recommended monthly use for continued ammonia reduction
- Will perform within a pH range of 6.5-8.5
- Non-hazardous and non-toxic
- Economical and ready to use mixture
- Package Quantity: 4

PLASTIC PIPE LOCATOR KITS

- Traces plastic (or any non-metallic) pipe using an acoustic pulse
- Mechanical pulse transmitters are heavy-duty brass castings that use water pressure to drive a pulse spring to impart the signal
- Pulse transmitter uses: red is for use on hydrants, yellow on meter setters and green on hose bibs
- Electronic pulse transmitter is ideal for use in low pressure water supplies, such as sprinklers, hoses, or domestic supplies where push fittings may be part of the infrastructure
- Receiver uses 9V batteries and works on distances up to 500' and at depths up to 6'
- Pro Kit includes: receiver kit, mechanical kit, plus electronic pulse transmitter, connection lead, and power adapter
- Mechanical Kit includes: receiver kit, low, medium, and high pulse transmitter and discharge hose
